Subject: SI and H Experimentation, 26 March 1952

On Wednesday, 26 March 1952, SI and H experiments were carried on in Building 13, Room 20, with [redacted] and [redacted] by Messrs. [redacted] and [redacted]

A

In view of the fact that it was assumed that the destruction of the film of the previous night had destroyed the sequence of hallucinations in which [redacted] had demonstrated, the entire sequence was run over using different light than previously used.

The sequence again illustrated the hallucination of taste, smell, sight, and touch. Also repeated were the anesthesia and hyper-sensivity experiments.
